Maureen,

Thank you for the informative update. That's really good news about the progress which the contractor has made.
Mark

Mark — Work has progressed very well on the Columbia Falls task order. I am expecting a report from the contractor on March 17th that will include a comprehensive index of both ARCO and CFAC 104(e) response documents and analysis of those documents based on key search terms and issues identified by the Agency as being of critical importance.

The current enforcement support contract ends on March 31st. Work under the current task order will be closed out at that time. We can talk about what work you would like to see done in April under the new contract after you have had a chance to digest the report.

I look forward to working with you on this Mark!

Subject: CFAC-Toeroek Update

Maureen,

I wanted to check in with you regarding the status of Toeroek's task order on the CFAC case. I understand that you are covering for Scott Wilder at this time. Toeroek was tasked with organizing case documents (104(e) responses), focusing first on ARCO's response. I would appreciate an update about how much progress Toeroek has made in organizing ARCO's response in anticipation of the existing enforcement contract being closed out.

Thank you.

Mark
